

# What is website hosting?

# Overview

Thanks for considering me for your website hosting! Here's a simple breakdown of what that means, what's included, and why it might be a better choice than going with a large hosting company.

# First, what is web hosting?

Web hosting is the service that makes your website visible and accessible on the internet.

Think of it like renting space on the internet:

- Just like your phone needs storage to keep photos, your website needs a home to store its files, images, and content.
- A web host stores all those pieces and delivers them to people when they type in your domain name (like yourbusiness.com).

Think of it like the storage your phone needs!

# What Web Hosting With Me Means

---

01

## **Secure Hosting Environment**

Your website will be hosted on reliable, secure servers with daily backups and strong uptime (99.9%+), ensuring your site stays online and protected.

02

## **Ongoing Technical Support**

I handle all the setup, renewals, backups, and server-side tech so you don't have to stress about anything technical.

03

## **Domain & SSL Management**

Optimized performance means your site runs fast—great for both users and SEO.

04

## **Fast Loading Speeds**

Need help managing your domain name or securing your site with SSL? I've got you covered.

05

## **Real Human Support (Me!)**

No phone trees, no waiting on hold—just message me and I'll help you directly.

# Why This Might Be a Better Option Than Big Hosts:

---

Large hosting companies (like GoDaddy, Bluehost, etc.) can be confusing, upsell-heavy, and hard to reach when something goes wrong. When you host with me:

- You don't have to deal with confusing dashboards or "tech speak."
  - You get priority support from someone who already knows your website and business.
  - I make sure your site is set up the right way from the start.
  - Your hosting, website updates, and support are all under one roof.
- No need to juggle logins, emails, or companies.

It's a more personal, stress-free experience tailored specifically for you.

---

## HOSTING PRICING

**Monthly Hosting: \$15/month**

**Annual Hosting: \$150/year (save \$30)**

Includes: full site hosting, backups, SSL, updates, and support.
